Subject: RE: ASD REVISED PLAYGROUND

John,
Thank you for providing these revised plans. I have finished reviewing them and have the following additional questions/ comments:

- Are the existing mature 3-4 trees along the current fence to be removed?
- Please provide heights for each piece of playground equipment and tents.
- Additional S&E controls are warranted at the "construction" entrances into the proposed playground area.
- Is any lighting proposed for the playground area?
- Where will the existing basketball hoops be relocated?

Subject: ASD REVISED PLAYGROUND

Good Morning – I hope this finds you well. Attached are the revised playground plans (LD.1 and LD.2) for your information. Two full size sets, 11 reduced 11"X17" format and electronic (ACAD) will be delivered to your office this afternoon. The major differences between this plan and the previous plan are;

1. The northern fence line has been relocated southward 24' from the property line.
 2. Plantings within the area (buffer) has been increased to include deciduous and evergreen trees.
 3. The play structures that might be considered encouraging the most activity have been relocated to the south side of the playground.
 4. The color of the various tents have been changed to a neutral brown/beige color from the previous green and red.
 5. The Birth-5 playground remains in the same configuration with the tent color being changed as noted above.
 6. The tent color in the exist. playground adjacent to the Admin. Bldg. has been changed as noted above.
- Needless to say there are many small revisions/refinements as the result of the revised playground but the noted above are the significant changes.

Please don't hesitate to contact me with any comments or questions.
